+91 9709438101 rashmipragya5@gmail.com <https://www.linkedin.com/in/pragya-rashmi-979573170>

— Experienced DevOps Engineer with 4+ years of expertise in building automated, scalable, and secure infrastructure on AWS and Azure. Proficient in CI/CD, container orchestration (Docker, Kubernetes), and infrastructure-as-code (Terraform). Adept at managing microservices architectures, automating deployment workflows, and improving system reliability through proactive monitoring and alerting. Proven track record of accelerating deployments, optimizing cloud resources, and ensuring high availability in production environments.

SKILLS

Cloud Platforms: AWS, Azure	IaC: Terraform
Automation & Configuration: Ansible, Python, YAML	Container Orchestration: Docker, Kubernetes, AWS EKS
Web Servers: Nginx	
DevOps Tools: Jenkins (CI/CD), Git, GitHub, SonarQube	Operating Systems: Ubuntu (20.04), Windows
Monitoring: Prometheus, Grafana	Agile Methodologies: Agile, DevOps workflows

EXPERIENCE

Tata Consultancy Services

Apr 2021 – till date

DevOps Engineer (TCS)

- Designed and deployed cloud infrastructure across multiple zones supporting 4G services. Migrated critical applications and microservices to AWS and containerized environments using Docker and **Kubernetes (EKS)**. Implemented automation for infrastructure provisioning and software deployment using **Ansible** and **Terraform**.
- Developed and maintained complex CI/CD pipelines in **Jenkins**, integrating **Git**, **GitHub**, **SonarQube**, and artifact repositories like **ECR**. Enabled security compliance and quality checks through automated pipelines and static code analysis.
- Created Docker images and managed Kubernetes deployments (76+ worker nodes). Configured **services**, **pods**, **load balancers**, and **backup policies** for container workloads in AWS.
- Configured **Prometheus** and **Grafana** for real-time monitoring and alerting, using custom metrics. Investigated system issues by analyzing logs and collaborated closely with the development team to resolve incidents in live environments.
- Built a reusable DevOps framework for project teams, promoting standardized deployment practices. Provided operational support, lifecycle management, and documentation for internal DevOps platforms.
- Documented procedures, designs, and solutions comprehensively for KT and maintaining documentation quality.

Key Achievements

- Reduced deployment time by 40% via automated CI/CD pipelines.
- Improved resource utilization by 25% after migrating workloads to AWS EKS.
- Ensured 99.99% uptime for critical systems through proactive monitoring and performance tuning.
- Successfully conducted live-node activities with minimal service disruption during 4G deployments.

EDUCATION

Rajasthan Technical University(RTU)

Aug 2015 – Jun 2019

Bachelor of Technology in Computer Science : 72.18%

Pursuing OPGDM from Great Lakes of Institute of Management ,Gurgaon

Jan 2023 –March 2025

Data Science and Business Analytics

CERTIFICATION

- Microsoft Certified: Designing and Implementing Microsoft DevOps Solutions(AZ-400)
- Microsoft Certified: Azure Administration Associate(Az-104)
- Microsoft Certified: Azure Fundamentals(Az 900)
- Google Cloud Certified Associate Cloud Engineer(GCP)
- Earned badges in Google Cloud Platform and Generative AI/ML
- Data Science Workshop by Internsala(1month)@IIT Madras
